

Coastal Erosion Hazard Map Task Force Meeting

University of Minnesota-Duluth, Swenson Science Building Room 203

Wed. 1/16/2019 2:00 pm

Agenda

1. **Welcome/Intros**
2. **Overview of meetings/work done to date**
 - Aug. 31, 2018 Large group discussion (Lake County Service Center)
 - Discussed hazard mitigation, existing data, budget
 - Sep. 19, 2018 GIS Workgroup Meeting (ARDC) (Stacey, Clint, Charlie)
 - Discussed existing data, expanding scope of work
 - Oct. 10, 2018 (Lake County SWCD) (Sonja, Ilena, Clint, Stacey, Justin, Charlie, Christine)
 - Discussed existing data, project phasing
 - Nov. 7, 2018 Phase II Grant Match Discussion (conference call) (Sonja, Ilena, Charlie, Justin)
 - Discussed project hesitations, clarification of scope, St. Louis inclusion
 - Nov. 30, 2018 (Conference call) (Sonja, Ilena, Charlie, Justin)
 - Discussed rolls & next steps
3. **Phase 1 overview**

Deliverables:

 - Project website – (what should we have on this site?)
 - Shared database
 - Web application
 - ArcGIS Online Group
4. **Review of data gathered so far**
 - a. Link to table:
<https://docs.google.com/spreadsheets/d/19d2PSFmkUrkrfTFo6w1fIcJTwhlt41QqQpu56Iz7Isc/edit?usp=sharing>
 - b. What is the most efficient way to organize data?
 - c. What is the best way to share this with GIS partners as we gather data?
 - d. What is the best way to share this with all partners?
5. **Discuss next steps**

Accessing Swenson Science Building Room 203: Parking meters near the Kirby Student Center and Swenson Building (off of College Street) are likely the easiest location to access the conference room from, otherwise metered spots near the medical school and gold lot.

This meeting is located at UMD given the Geospatial Analysis Center is located nearby, as is UMD, limiting travel time for most people. This meeting will be heavily focused on GIS.
