CERTIFICATE OF INDIRECT COSTS

This is to certify that I have reviewed the indirect cost rate proposal prepared and maintained herewith and to the best of my knowledge and belief:

- (1) All costs included in this proposal dated November 30, 2020 to establish indirect costs rate(s) for calendar year 2021 are allowable in accordance with the requirements of the Federal award(s) to which they apply and OMB Circular A-87, "Cost Principles for State, Local, and Indian Tribal Governments." Unallowable costs have been adjusted for in allocating costs as indicated in the cost allocation plan.
- (2) All costs included in this proposal are properly allocated to Federal awards on the basis of a beneficial or causal relationship between the expenses incurred and the agreements to which they are allocated in accordance with applicable requirements. Further, the same costs that have been treated as indirect costs have not been claimed as direct costs. Similar types of costs have been accounted for consistently and the Federal Government will be notified of any accounting changes that would affect the predetermined rate.
- (3) The indirect cost rate calculated within the proposal is <u>9.80 percent</u>, which was calculated using an indirect cost rate base type of Salaries and Fringe. Calculations were based on actual costs at October 31 balances annualized for employees for calendar year 2020 to obtain a federal indirect cost billing rate for calendar year 2021.

All documentation supporting the indirect cost rate identified above must be retained by the Recipient. This rate should be reviewed and validated as part of the Recipient's annual financial audit.

Subject to the provisions of the Program Fraud Civil Remedies Act of 1986, (31 USC 3801 et seq.), the False Claims Act (18 USC 287 and 31 USC 3729); and the False Statement Act (18 USC 1001), I declare to the best of my knowledge that the foregoing is true and correct:

Organization Name:	Arrownead Regional Development Commission
Signature: Name of Authorized Official:	Lorna M. Morrisroe
Title:	Finance Director .
Date of Execution:	November 30, 2020
Title:	Finance Director

LOBBYING CERTIFICATE

This is to certify that I have reviewed the indirect cost rate proposal prepared and maintained herewith and to the best of my knowledge and belief:

As the official having the authority to negotiate the indirect cost rates on behalf of the ARDC, I hereby certify that the Organization has complied with the federal requirements and standards on lobbying costs in as set forth in OMB Circular A-87, "Cost Principles for State, Local, and Indian Tribal Governments', in the development of the indirect cost billing rate for the fiscal year ending 2021, based on 10 month annualized actual costs from fiscal year 2020.

Subject to the provisions of the Program Fraud Civil Remedies Act of 1986, (31 USC 3801 et seq.), the False Claims Act (18 USC 287 and 31 USC 3729); and the False Statement Act (18 USC 1001), I declare to the best of my knowledge that the foregoing is true and correct.

Organization Name:	Arrowhead Regional Development Commission
Signature:	L'ema of Nomina
Name of Authorized Official:	Lorna M Morrisroe
Title:	Finance Director .
Date of Execution:	November 30, 2020

Purpose

The purpose of this cost allocation plan for calendar year 2021 is to summarize, in writing, the methods and procedures that the Arrowhead Regional Development Commission (ARDC) will use to allocate costs to various programs, grants, contracts and agreements.

The plan addresses elements of costs incurred by ARDC and identifies common/shared costs that require consistent and sound allocation to be equitably shared by all work elements. The plan will not increase shared costs and provides for identification and equitable distribution on an agency—wide basis.

History

ARDC was created for the seven northeastern counties of Minnesota as Region III pursuant to Minnesota Statutes Section 462.381-462.396. The purpose of regional development commissions is to work with and on behalf of local units of government to develop plans or implement programs to address economic, social, physical, and governmental concerns of each region of the state. The commission may assist with, develop, or implement plans or programs for individual local units of government.

ARDC has been designated:

- Minnesota Board on Aging as the Area Agency on Aging for Region III Planning and Service Area (PSA),
 Region III comprises the counties of Aitkin, Carlton, Cook, Itasca, Koochiching, Lake, and St. Louis.
- <u>Metropolitan Planning Organization (MPO)</u>, to provide guidance and leadership on transportation and land use planning issues in the Duluth-Superior metropolitan planning area
- Northeast Minnesota Economic Development District, which provides economic development planning assistance to communities in the counties of Aitkin, Carlton, Cook, Itasca, Koochiching, Lake, and St. Louis.

The business and affairs of the Commission are managed by a Board of Commissioners. The Board of Commissioners has the power to designate management, and has the ability to significantly influence operation and primary accountability for fiscal matters. The Commission receives funding from local, state and federal government sources and must comply with the requirements of these funding source entities.

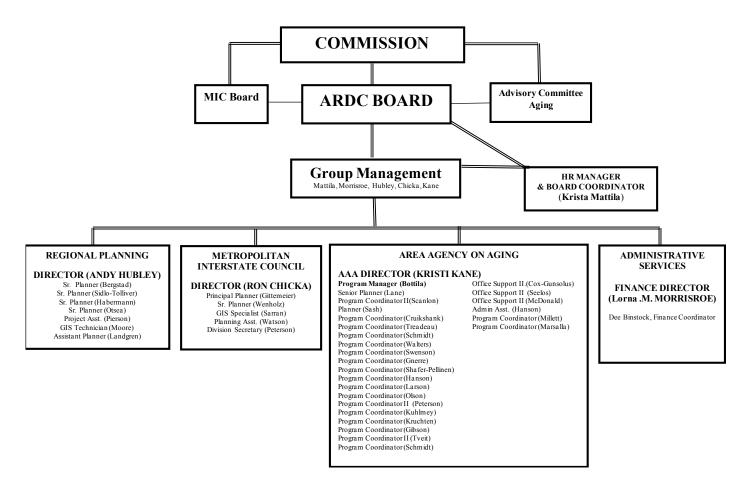

ACCOUNTING SYSTEM DESCRIPTION

The ARDC uses a totally integrated Grants Management System (GMS) software designed specifically for public and non-profit multi-funded organizations receiving contract and grant funds. Separate journals and ledgers (organization codes and project numbers) are maintained for each individual program in the direct cost base. A separate journal and a general ledger (organization codes and project numbers) are also maintained for the indirect cost pool.

The composition of total costs of a project is allowable direct costs plus the allocated portion of the allowable indirect costs of the Commission. The Cost Allocation Plan has been developed using allowable costs as documented in *Final OMB Uniform Guidance: Cost Principles, Audit, and Administrative Requirements for Federal Awards 2CFR 200.27 Subpart F, Appendix IV, Appendix V, Appendix IX.*

The cost allocation structure contained in this plan provides the agency with an ability to monitor the various components of allocated cost. It also provides the basis for a consistent budgetary, accounting and reporting structure for the agency so that all components of the financial management system are compatible. The direct and indirect characteristics of each category of expenditures are delineated.

Arrowhead Regional Development Commission Organizational Chart 2021

Leave Policies of the Commission

The leave pool does not require the issuance of a rate since leave is budgeted as a part of salaries. Salaries are budgeted in terms of annual salaries without distinction between service and leave time. Therefore, the billing rate per hour is the hourly rate paid to the employee increased by the portion that has been taken as leave. Treatment of paid absences: Vacation, holiday, sick leave and other paid absences are included in salaries and wages and are claimed on grants, contracts, and other agreements as part of the normal cost for the salaries and wages.

Fringe Benefits and their Cost

Fringe benefits are established by the ARDC Commission Board of Directors and are documented in the Employee Handbook. <u>Actual</u> costs for the fringe benefits are accumulated in the accounting system on an accrual basis. The accumulated pool costs are distributed to each work element through the actual rate which is the ratio of fringe costs to total salaries.

The proposed Fringe Benefit Rate is calculated by total fringe benefits divide by total Direct Salaries (Exhibit A)

Fringe = 812,545 / \$2,258,416 = 35.98% calculated rate

The Cost Allocation Plan and supporting methodology allows the Agency to establish and maintain accountability for each grant or contract regardless of when received. The integrated financial management structure treats costs consistently. During the year the accounting system produces indirect rates based on actual expenditures on a cumulative year to date basis. At the end of the fiscal year the previous actual rate will serve as the basis for developing the ensuing year's plan.

Indirect Costs (Exhibit B)

Indirect costs are costs that are not readily identified with a particular project but are nevertheless incurred for the joint benefit of Commission programs. Indirect pools/cost centers are used with bases to facilitate an equitable and consistent distribution of indirect costs to work elements. The accounting system identifies actual indirect cost rates for comparison with the rate proposed herein.

- (a) A base period for allocating indirect costs the base period for ARDC actual costs is the calendar year.
- (b) All grants or contracts that contain salaries bear a pro rata share of indirect costs.
- (c) The Commission's method of allocating indirect costs is in accordance with generally accepted accounting principles consistently applied.

Allowable Costs

Individual elements of cost are classified as direct or indirect in accordance with principles contained in *Final OMB Uniform Guidance: Cost Principles, Audit, & Administrative Requirements for Federal Awards 2CFR 200.27 Subpart F, Appendix IV, Appendix V, Appendix IX*

- (a) An indirect cost is reasonable when it is necessary for the operation of the Commission and the purchase is made in compliance with the Purchase and Procurement Policy of the Commission.
- (b) The costs are consistent with generally accepted accounting principles. The Commission is responsible for making sure that purchases are allowable and reasonable under cost principles in 2CFR 200.27.
- (c) Internal controls the Commission's policies and procedures ensure there is separation of duties to ensure no one person has control over all aspects of a financial transaction.

Indirect Cost Rate

The indirect cost rate is the ratio of total indirect costs divided by the base - salaries plus fringe.

ARDC Commissioners have identified the need for in-house services to the ARDC Divisions as folllows:

- 1. A Human Resources management
- 2. Information Technology coordination

Inhouse time (salary and fringe benefits) not clearly identified as a deliverable in a grant or contract is recorded as indirect expense.

Depreciation costs associated with it building/facilities and equipment are included in Indirect Costs. The straight line depreciation method used identifies the asset class and expected life of the asset.

IT server equipment under \$2,500 are included in Indirect Costs and software licenses, virus protection and other items related to security of data security.

Indirect Costs Pools - are accumulated in the accounting software to consistently distribute to each element/project through a rate calculation of **total indirect costs** divided by **indirect cost base** (agency-wide salary + fringe).

<u>Description</u>	<u>Balance</u> 10/31/2020	Annualized 2020	2020 Indirect Budget
Total Indirect Costs Indirect cost base (total salaries +	215,387 2,400,876	258,265 2,881,051	300,960 3,070,961
fringe) Indirect cost rate	8.97%	8.97%	9.80%

Cost Allocation and Direct Expense

A direct cost is any cost that can be identified specifically with a particular cost objective/work element. Each project has a budget for direct costs and are charged directly to the contract. Salaries, wages, staff travel, photocopy, printing, contractual purchases, etc. identifiable to a particular project are charged directly to that project

- (a) All allowable direct costs are charged directly to programs, grants, activity, etc.
- (b) Allowable direct costs that can be identified to more than one program are prorated individually as direct costs using a base most appropriate to the particular cost being prorated. Examples include facilities which are allocated on a square footage basis and professional liability insurance allocated by the number of hours recorded for each project.

The ARDC provides facilities (work space) and certain services to all of the Divisions on a centralized basis. A process has been developed whereby these central service costs are identified and charged to benefited grants and contracts on a reasonable and consistent basis. Considerations in determining an appropriate base for allocating costs include the relative benefits received, the materiality of the cost, and the amount of time and cost to perform the allocation. Costs of central-type services to the Divisions are directly charged using allocation bases for cost distribution. Bases are established for each type of expense category and distributed through transfer coding.

Commission travel includes charges for mileage, airfare, lodging, meals, taxi and per diems for Commissioners. All Commission travel charges are charged to the Commission administrative budget that is funded directly by the General Fund. The Commission is funded by property tax levy receipts.

Requests for Information

Questions concerning information provided in this Cost Allocation Plan, or requests for additional financial information, should be addressed to:

Exhibit C - **Expense Allocation**

Expense Description	Methodology of Allocation
Contractual services	Actual usage – Direct expense
Depreciation / use allowance	Indirect cost
Equipment rental and maintenance	Internal Services Pool Allocated by usage logs
Equipment / capital	Internal Service Allocated by usage
de har a selb es	
Equipment / minor	Actual usage – Direct expense to project
Insurance – Professional Liability	Allocated on hours - Actual time spent on project
Facilities/Occupancy	Charges for maintenance repairs, utilities are calculated on basis of square footage used by employee multiplied by the time spent on the project
Office supplies	Directly expensed to program
Other expenses	Based on administrative services actual use
Postage	Actual usage based on log directly expensed to project
Printing	Actual usage based on log directly expensed to project
Destructional force	Ati
Professional fees	Accounting and audit, payroll processing services, are charged on work performed for administrative services
Program materials	Direct expense
Program supplies	Charged to project as costs are incurred; direct cost
Renovations and improvements	Direct cost to Internal Service
Telephone	Basic services allocated on number of phones used
Travel	Actual usage Directly charged to program

Schedule of indirect costs (budgeted and actual) is sufficiently detailed to determine the purpose and classification, including salaries and unallowable expenses (e.g. contributed salaries and services, interest expense, bad debts, advertising, depreciation on federally funded assets and lobbying costs) are eliminated from the indirect cost pool.

Exhibit D - Narrative description of Cost Allocation Approach and Procedures

Personnel includes all charges for staff salary and wages documented with biweekly timesheets showing time distribution for all employees and allocated based on time spent on each program or grant. Salaries and wages are charged directly to the program for which work has been done. Costs that benefit more than one program are allocated to those programs based on the ratio of the program's hours to the total of such hours. Costs that benefit all programs are charged to indirect costs using a rate with a base of salary and fringe.

Fringe benefits includes all charges for FICA, UC, and Worker's Compensation, PERA (Public Employee Retirement), health savings account payments, health insurance, dental insurance, life and disability and other fringe benefits are allocated to personnel charges. All fringe benefits are recorded as actual.

Insurance needed for a particular program is charged directly to the program. Insurance for general and professional liability coverage are expensed allocated by the number of hours spent working on a project.

Contracted Services charged directly to the program that have direct benefit. These costs include charges for consultants, legal services, audit services, etc.

Postage is allocated based on usage and charged directly to that program as documented in the postage log.

Printing and photocopying (including supplies, maintenance and repair) expenses are charged directly to programs that benefit from the service. An internal service fund is maintained for printing and copying. The copier/printers have logging software that charges the work project or contract for each copy printed or photocopied.

Program Supplies are charged directly to programs that benefit from their use.

Internet and Telephone are purchased as a bundled product. The costs of the internet and telephone are allocated on a per cubicle basis. All onsite employees receive the same type and level of service. All telephone equipment is fully depreciated. Using a per cubicle (office) basis the charges vary during the year due to interns, seasonal employees and volunteers. Telephone service for off-site staff is charged directly to the projects they are working on. Cell phone costs are also charged directly.

Training/Conferences/Seminars are allocated to the program benefiting from the training, conferences or seminars.
